Coordinator

Futuro Digitale was born on 20th February 2013 in a small town in Calabria region (Southern Italy).

It was created by a small group of young persons to empower youth through the promotion of European citizenship, creativity and entrepreneurship.

- Exchange of information and good practices in social entrepreneurship, education and ICT issues
- Training and education to empower youth
- Support youth in employability
- Promotion of European citizenship
- Fostering cooperation among Mediterranean countries
- Reducing Digital Divide

- 4 Founders
- 1 Project Coordinator
- 8 Social Planners
- 15 European junior European fund consultants

- European and Social Project management
- Micro-credit/job consultancy
- Erasmus for entrepreneurs/placement sending/host organisation
- Cultural and technological events
- Teaching of Italian language for different social purposes
- Digital divide awareness and reduction
- ICT education

Adult education is one of economic empowerment and employment promotion action, as well as an educational action for its social dimension.

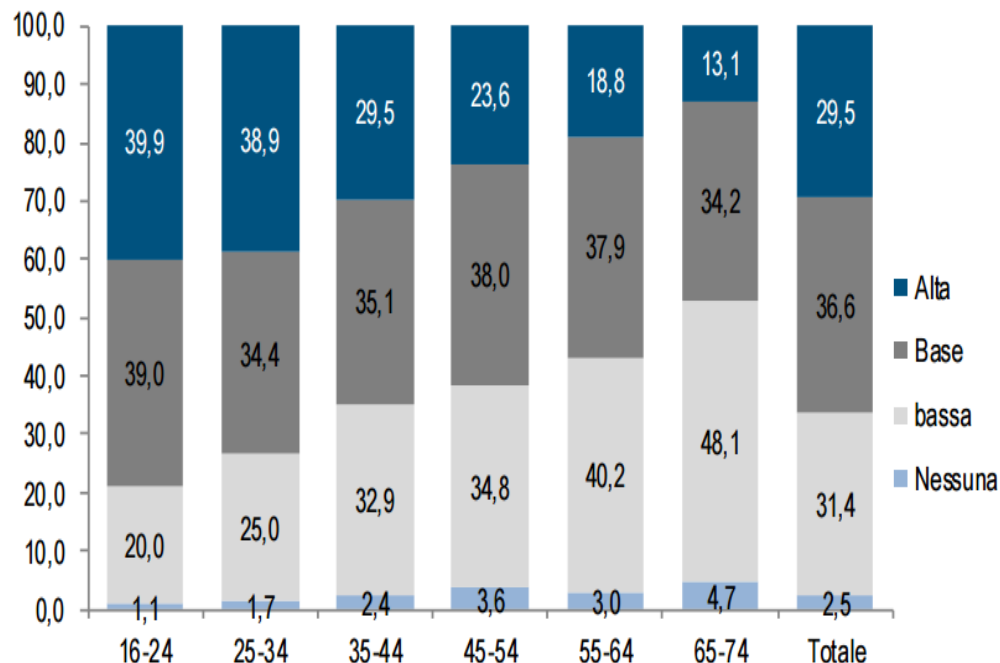

In Italy, only the 6% of adults participate in continuing education programs (Eurostat 2011) and our country is the last among the European Union countries.

Reasons:

- lack of awareness among adults of learning opportunities
- poor understanding of their value for social development and personal income

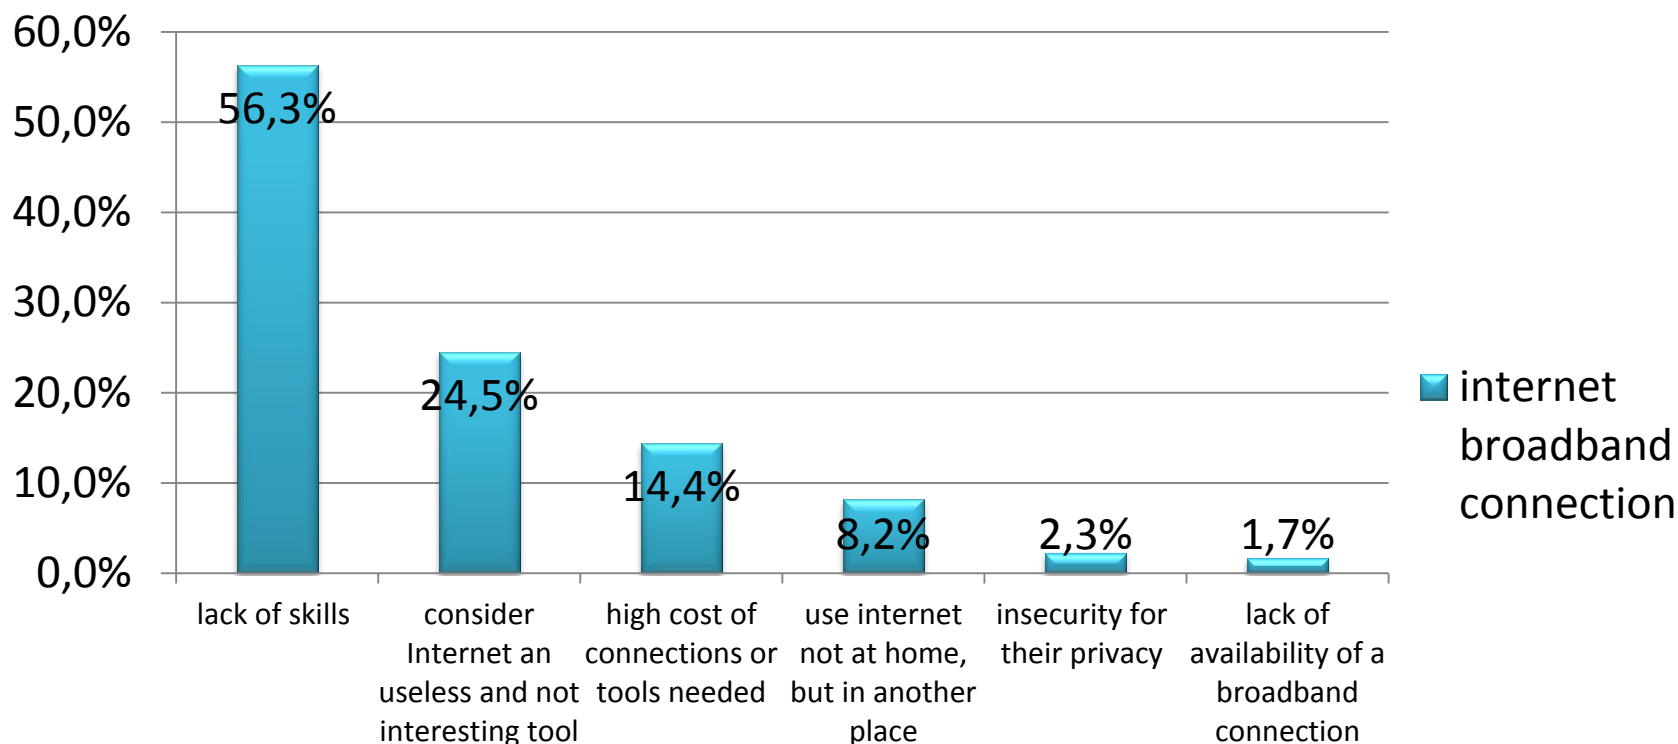

Socio-economic report on national, regional, local context on basic skills

FIGURA 12. PERSONE DI 16-74 ANNI CHE HANNO USATO INTERNET NEGLI ULTIMI 3 MESI PER LIVELLO DI COMPETENZA DIGITALE. Anni 2015, valori per 100 persone di 16-74 anni e più della stessa classe di età.

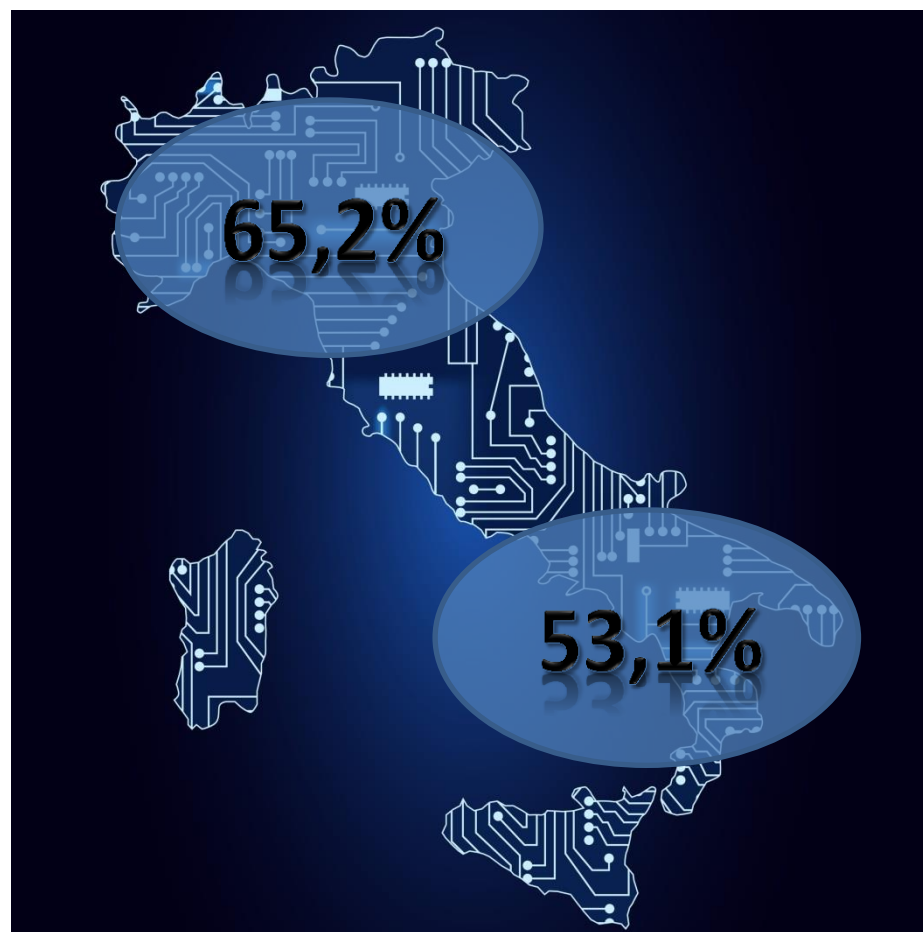

Socio-economic report on national, regional, local context on basic skills

Unused web due to lack of skills.
